## Mortgage Administrator Price List

### Purchase Outright

#### **Mortgage Administrator, Desktop Edition.**

Suitable for 1 to 41 users on a local area network or as stand alone users. £350.00 per user

#### **Mortgage Administrator, CS Client.**

Suitable for 1 to 41 local, remote and stand alone users via a VPN or LAN. £350.00 per user

#### **Mortgage Administrator, CS Server.**

Server software. 1 licence is required per company for use with CS Client. £250.00

### Which version do I need?

#### **All users within the same office**

If all your users are located within the same office using a local area network (LAN) or your users will be stand alone users, i.e not part of a network. then the Desktop Edition is the version you need.

#### **Some users working outside the office.**

If you have any remote workers, i.e. workers that will be located outside your office and you still want them to have access to Mortgage Administrator then the CS Client is the version you will need.

Along with the CS Client version you will need to purchase a single copy of the CS Server software.

### Optional Extras (cont'd)

#### **Software Upgrade Program**

If you like having the latest version with the newest features at the best price then the software upgrade program is for you.

For only £99.00 per installation per year you will receive unlimited upgrades for Mortgage Administrator client and server versions.

As soon as we make an upgrade or new version available you will receive an email, then at the press of a button you can upgrade to the latest version.

#### **Ad-Hoc Upgrades**

If the upgrade program is not for you but you still want the latest version, an upgrade path is available for a fee of around £30 - £90 per upgrade.

The upgrade price will be announced upon release of each particular version.

#### **Free Upgrades**

We always issue bug fixes for free and from time to time minor upgrades are offered free of charge.
